DETAILED ACTION

1. Applicant's communication filed on September 20, 2005 has been carefully studied by the Examiner. The arguments advanced therein, considered together with the amendments made to the claims, are persuasive and the rejections based upon prior art made of record in the previous Office Action are withdrawn. Claims 1, 8 and 10-14 have been amended. Claims 2-7, 9 and 16-29 have been canceled. Claims 30-34 have been added. Claims 1, 8, 10-15 and 30-34 are pending.

Drawings

2. The drawings were received on April 6, 2005. These drawings are accepted.

Allowable Subject Matter

3. Claims 1, 8, 10-15 and 30-34 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art cited is the most relevant prior art known. However, the invention of claims 1, 8, 10-14 and 30-34 distinguishes over the prior art for the following reasons. The prior art of record does not disclose or reasonably suggest the module comprising the claimed flange arrangement as noted on page 9 of Applicant's response. The prior art of record does not reasonably suggest the modification to the prior art of record to provide the two pairs of flanges, the first pair parallel to the base and the second pair perpendicular to the base and the other flanges, as recited in claim 1 in combination with the front plate, rear plate and second member. Claims 8, 10-15 and 30-34 are allowable as depending from claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
